# MEET OUR TEAM

 **creara**  
ENERGY EXPERTS

PROJECT  
COORDINATOR

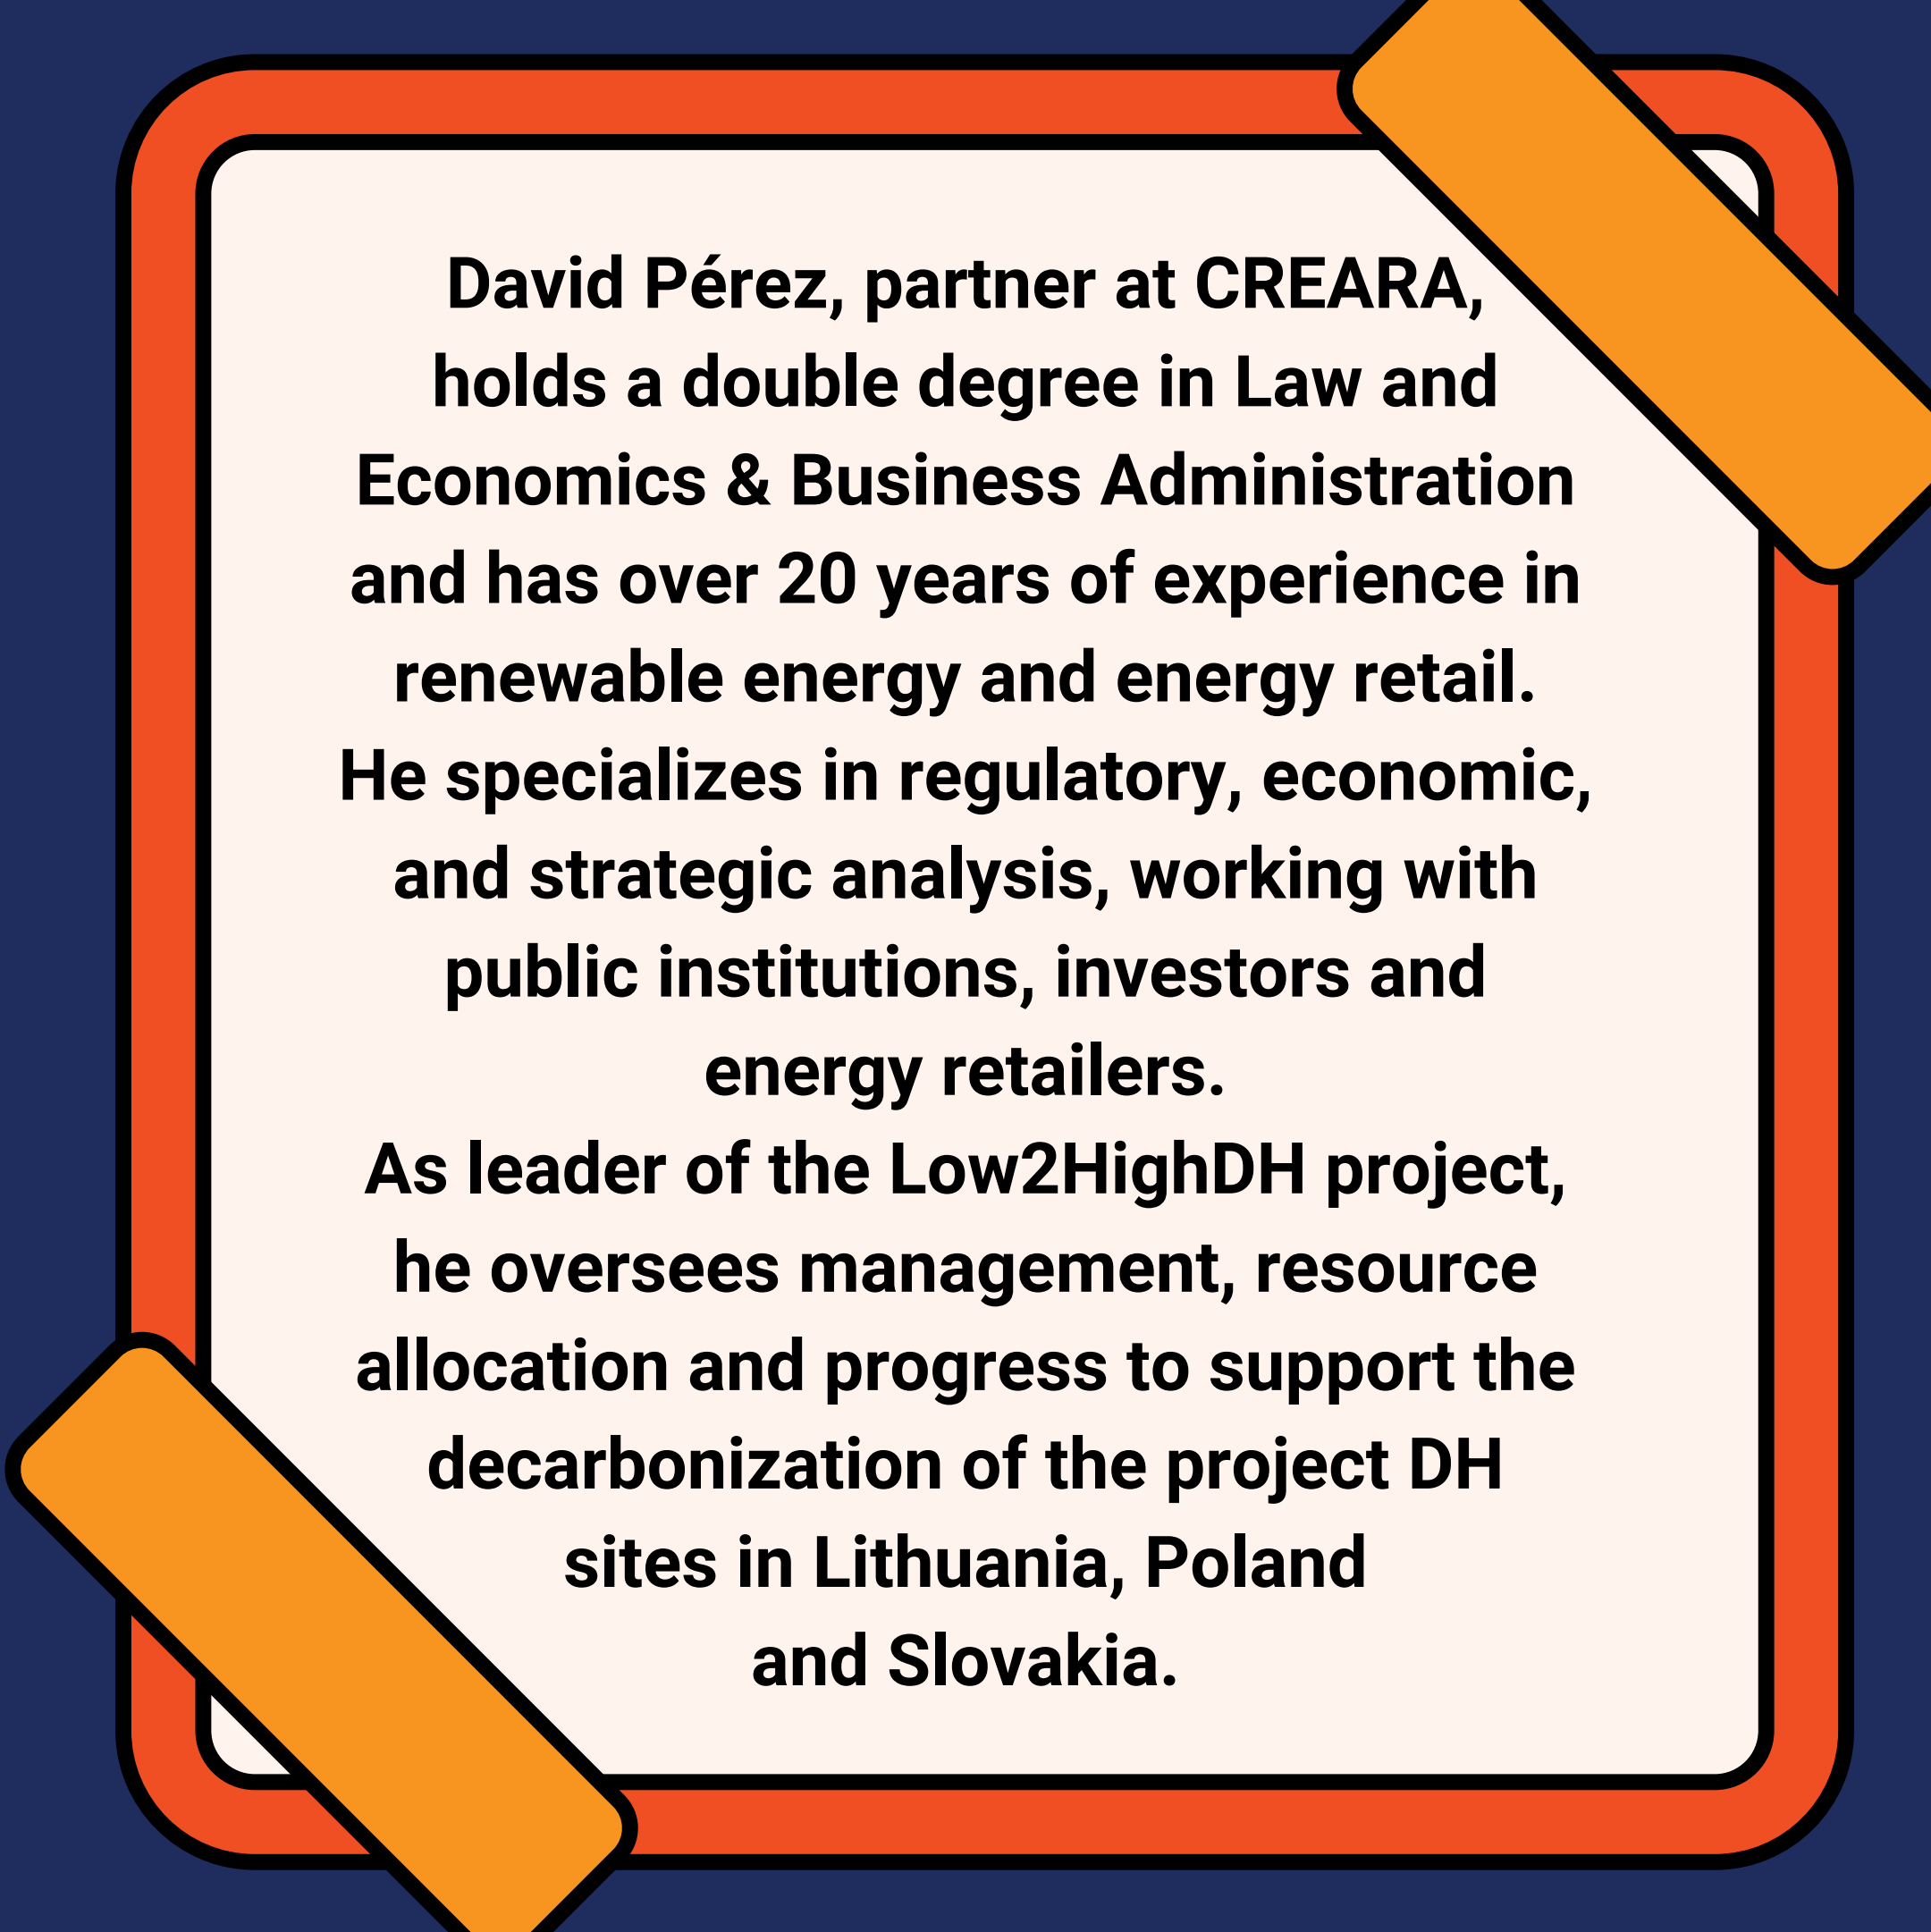

Gabriel García

David Pérez

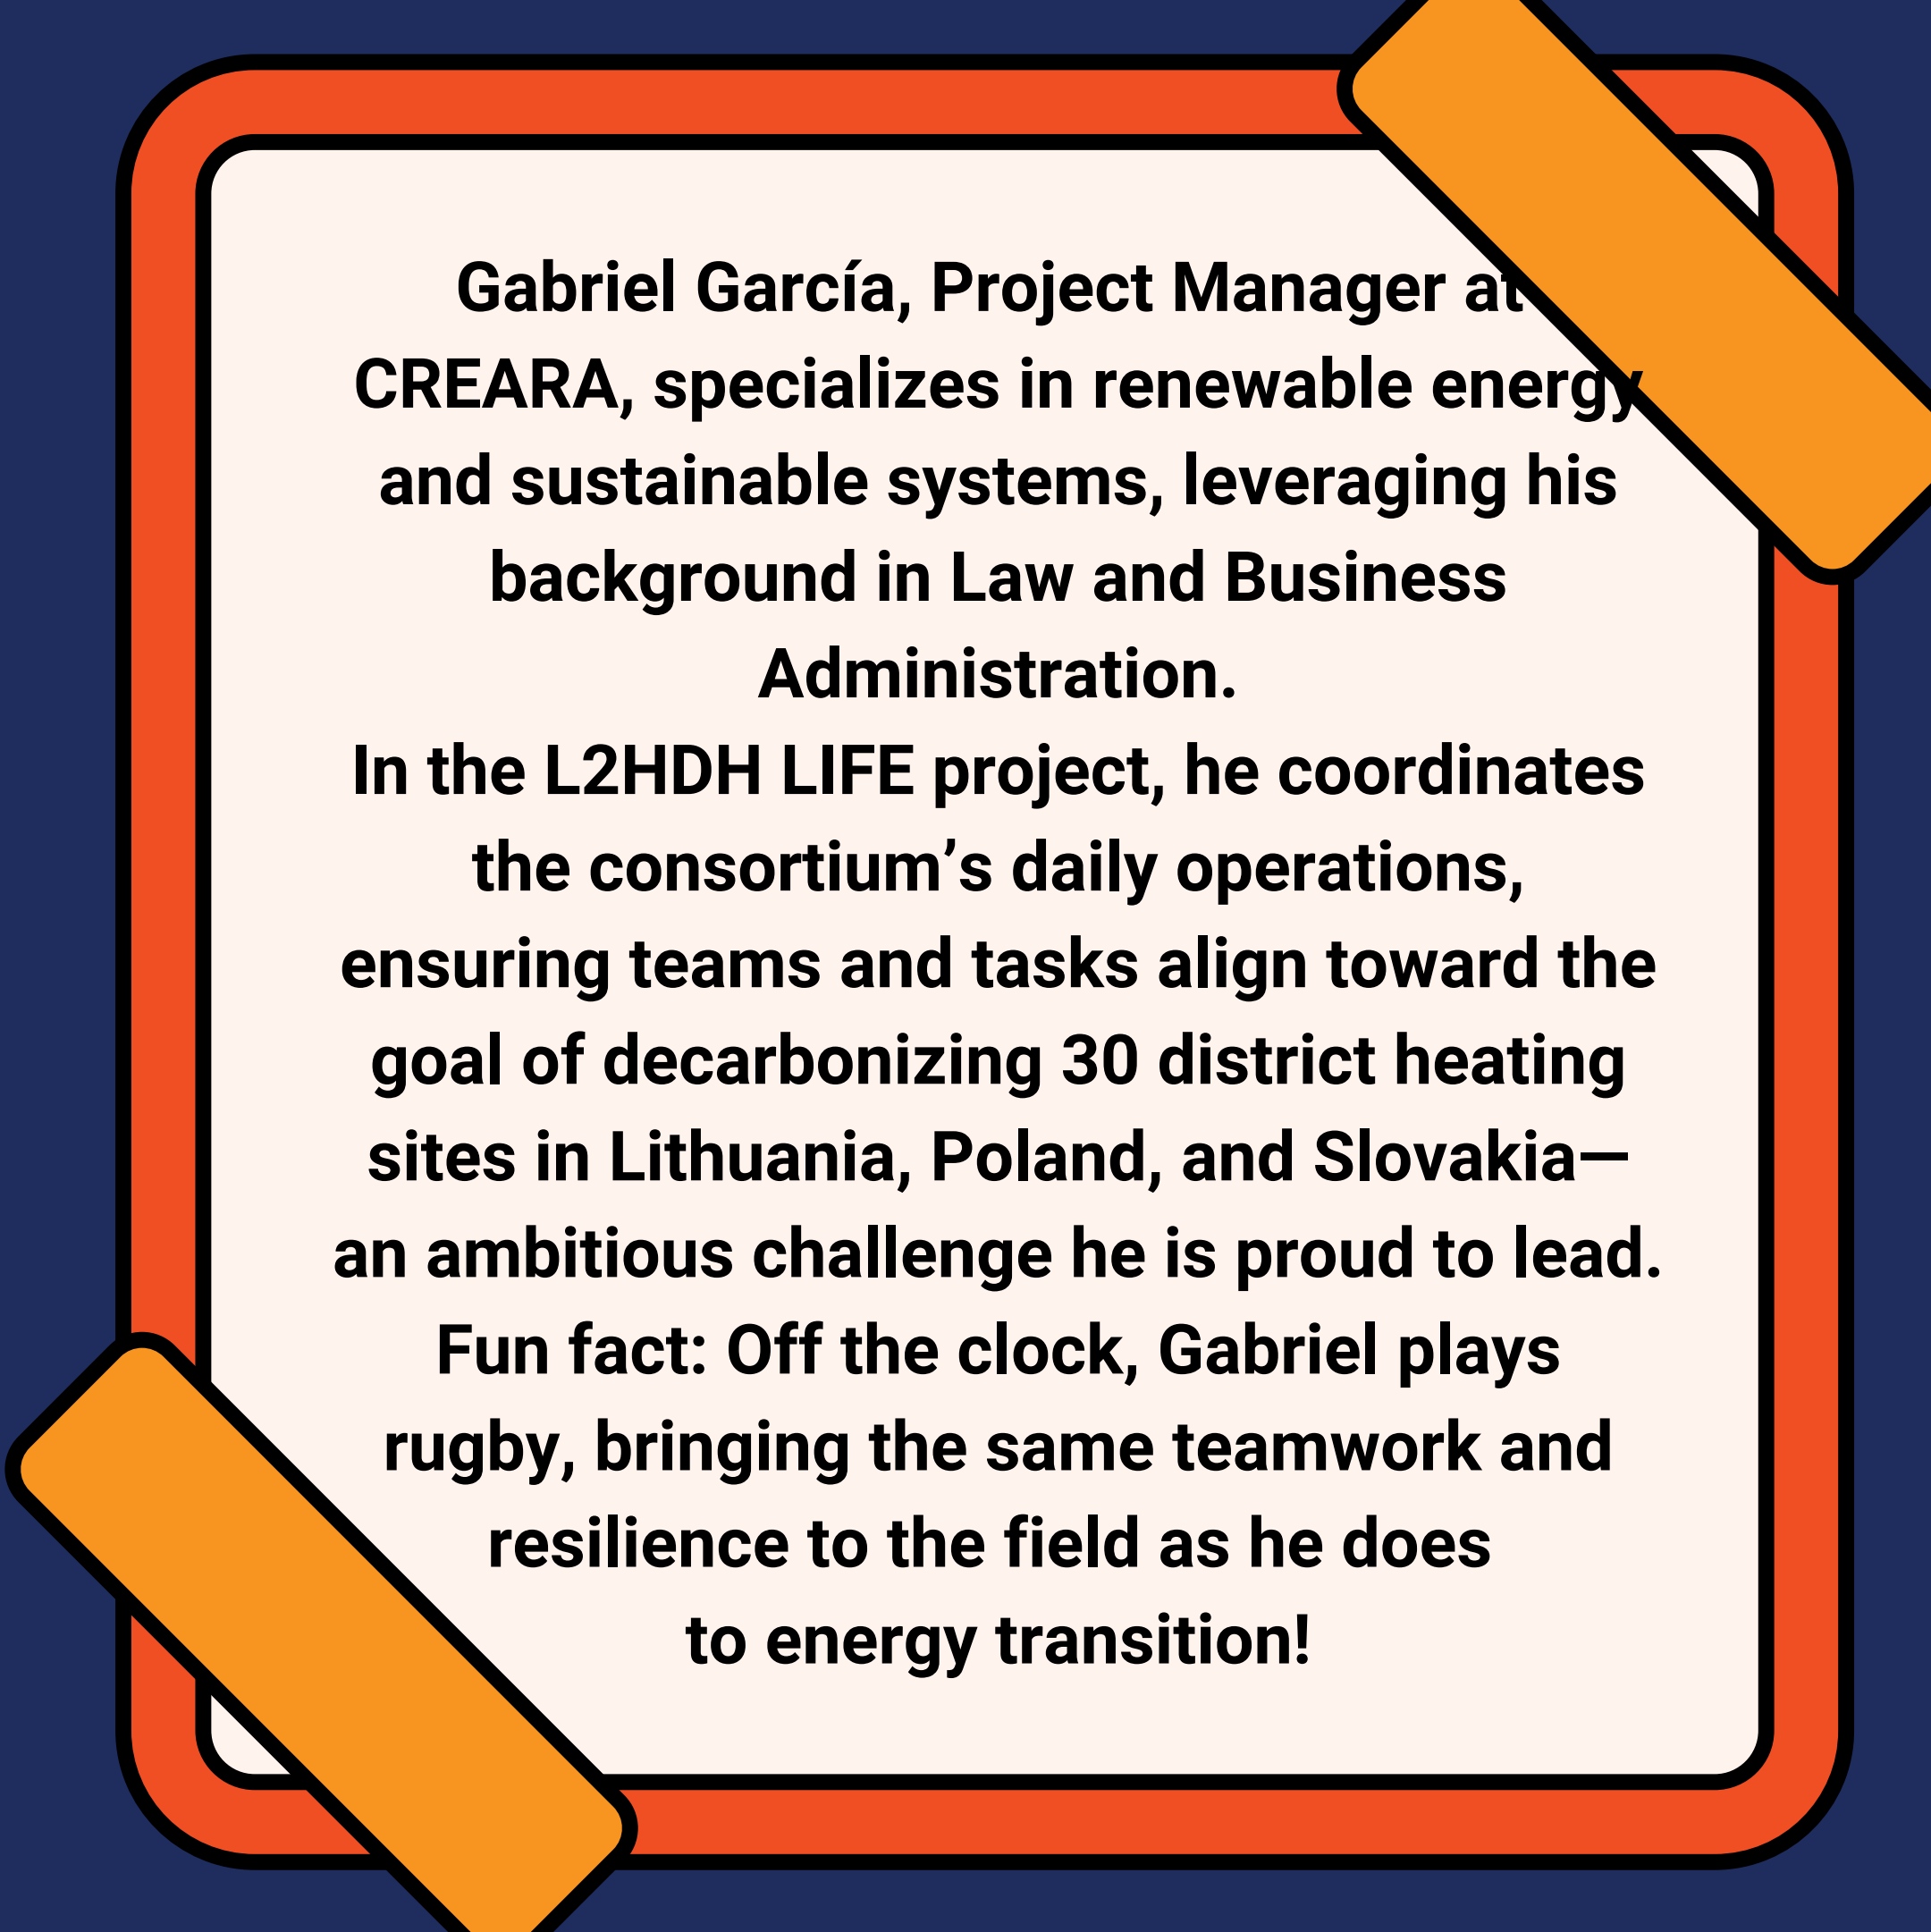

Luis Díez

**David Pérez, partner at CREARA, holds a double degree in Law and Economics & Business Administration and has over 20 years of experience in renewable energy and energy retail. He specializes in regulatory, economic, and strategic analysis, working with public institutions, investors and energy retailers.**

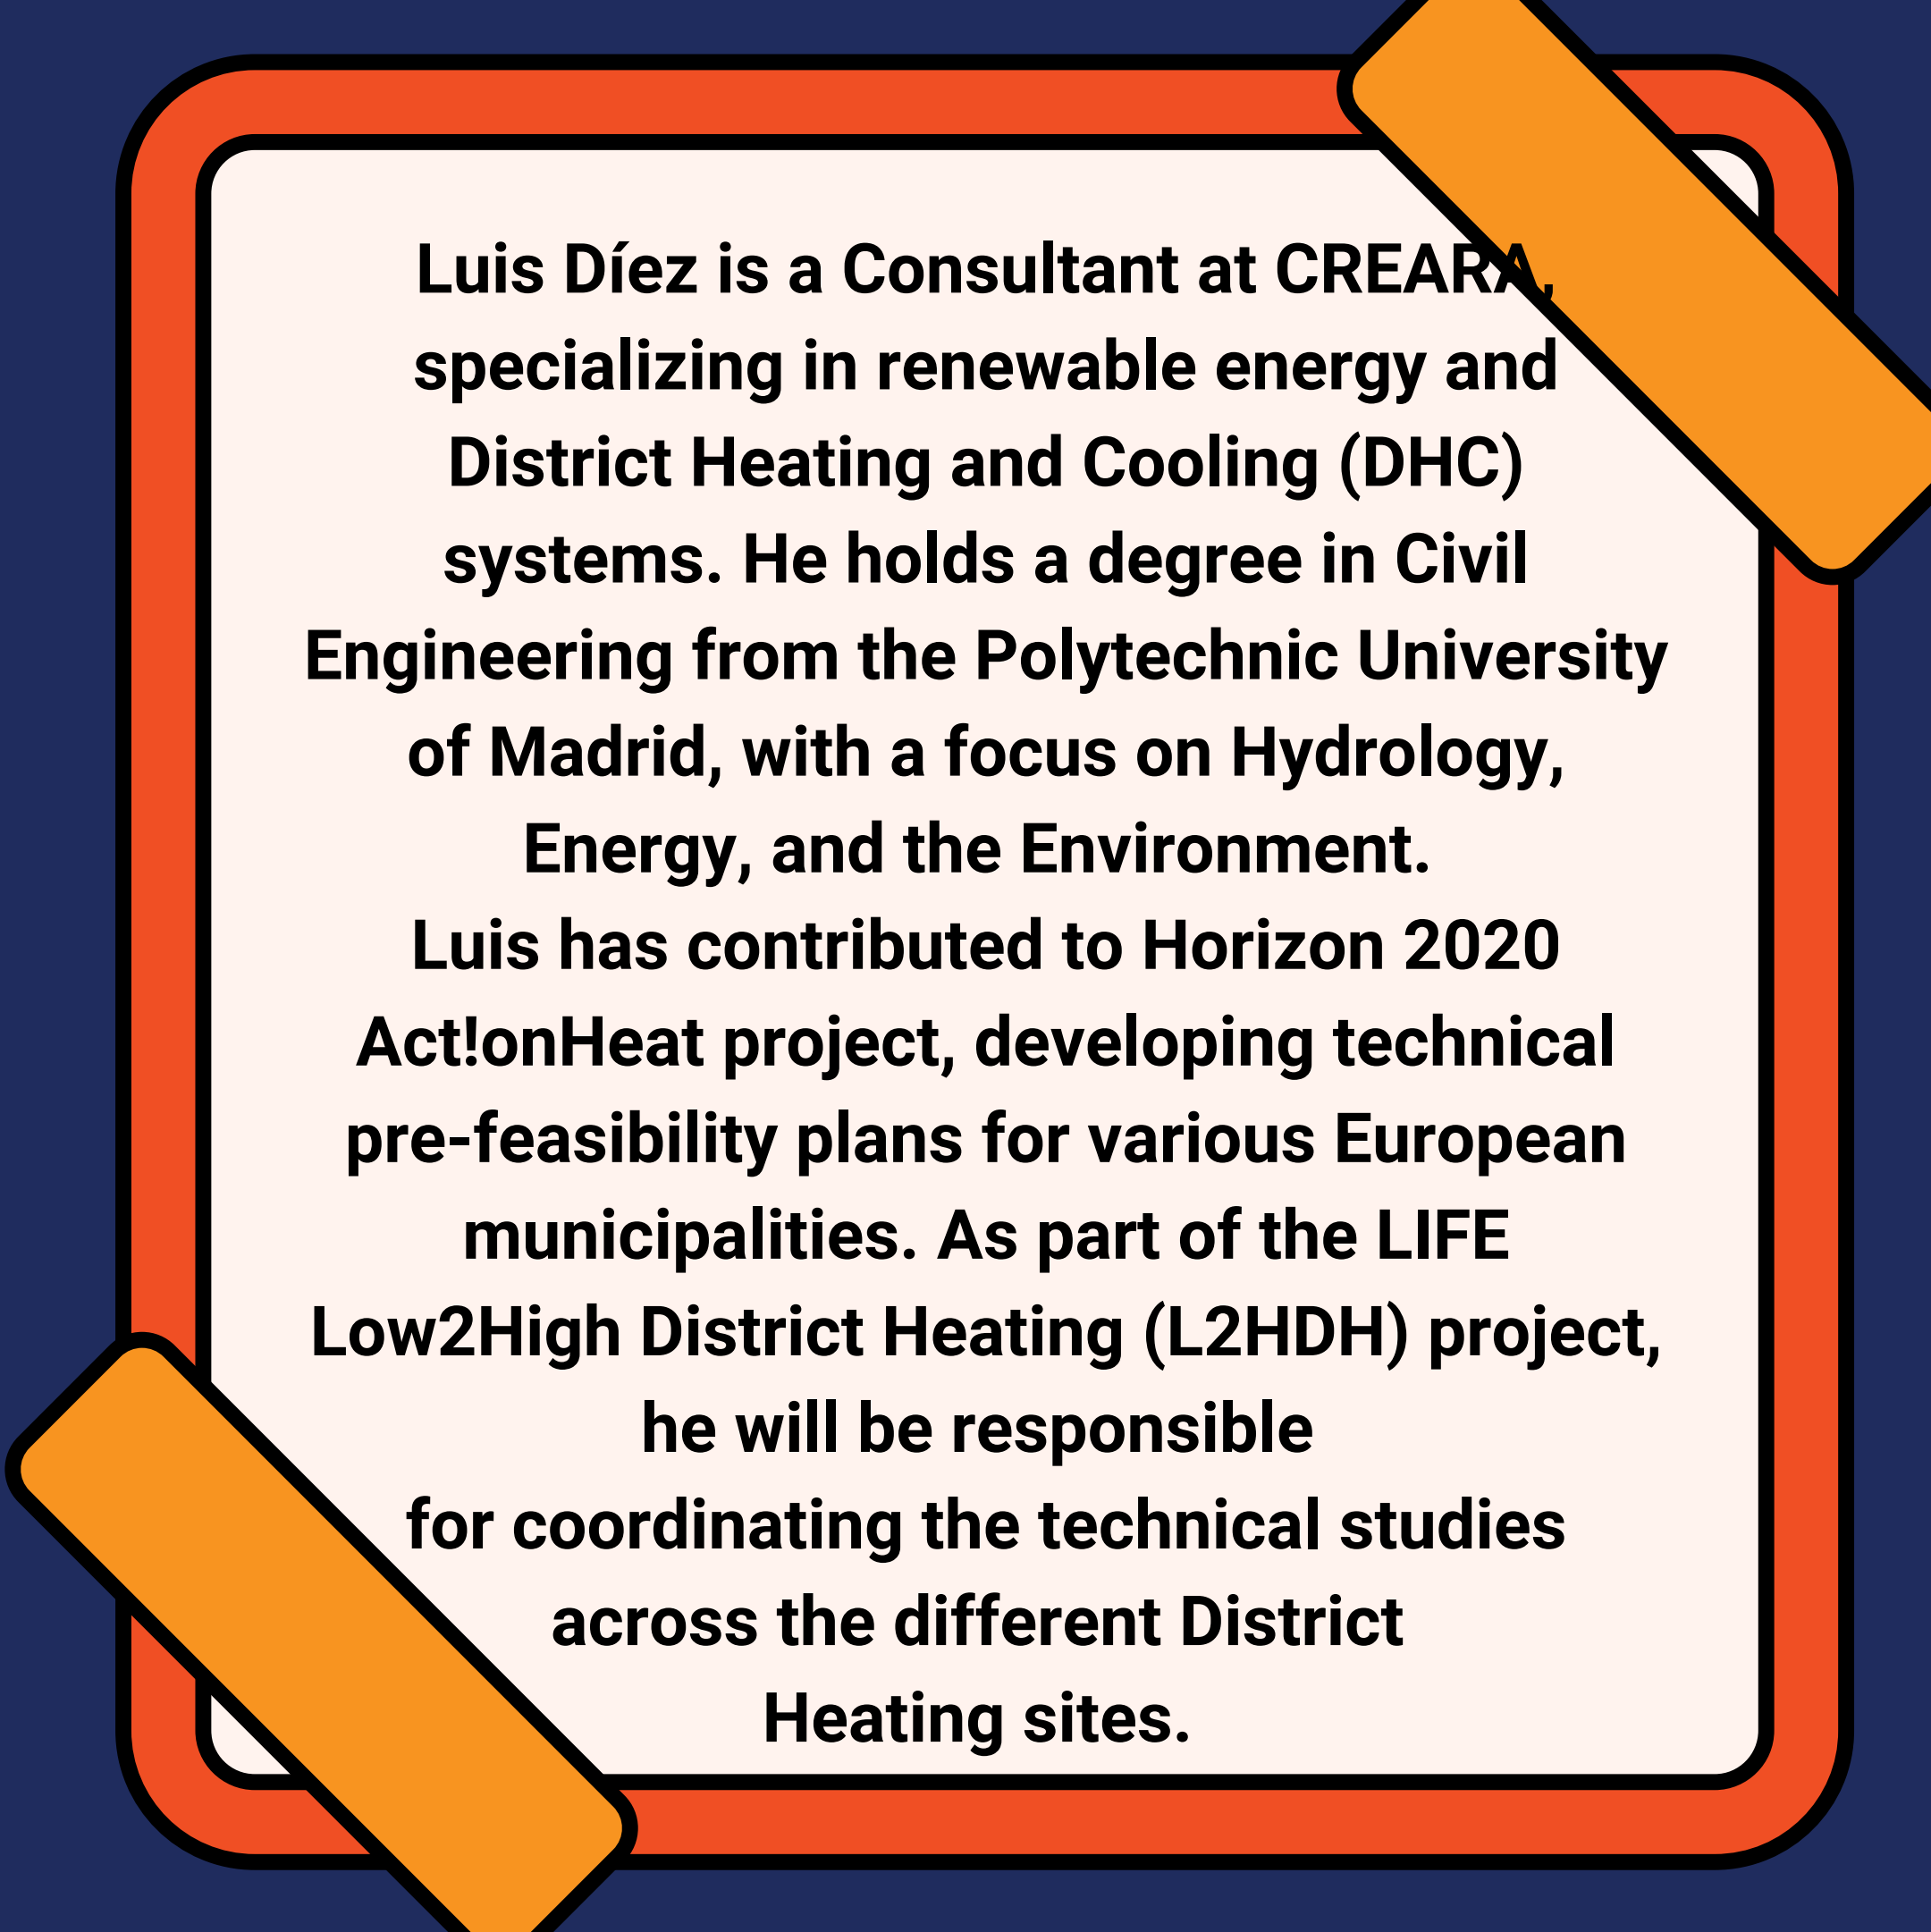

**As leader of the Low2HighDH project, he oversees management, resource allocation and progress to support the decarbonization of the project DH sites in Lithuania, Poland and Slovakia.**

**Gabriel García, Project Manager at CREARA, specializes in renewable energy and sustainable systems, leveraging his background in Law and Business Administration.**

**In the L2HDH LIFE project, he coordinates the consortium's daily operations, ensuring teams and tasks align toward the goal of decarbonizing 30 district heating sites in Lithuania, Poland, and Slovakia—an ambitious challenge he is proud to lead.**

**Fun fact: Off the clock, Gabriel plays rugby, bringing the same teamwork and resilience to the field as he does to energy transition!**

**Luis Díez is a Consultant at CREARA, specializing in renewable energy and District Heating and Cooling (DHC) systems. He holds a degree in Civil Engineering from the Polytechnic University of Madrid, with a focus on Hydrology, Energy, and the Environment.**

**Luis has contributed to Horizon 2020 Act!onHeat project, developing technical pre-feasibility plans for various European municipalities. As part of the LIFE Low2High District Heating (L2HDH) project, he will be responsible for coordinating the technical studies across the different District Heating sites.**
